

2025 Corporate Partnerships

Together we can do so much!

Affordable Homes & Communities (AHC) is grateful for the generosity of our corporate partners who help us serve nearly 20,000 individuals in our 55 communities each year. Philanthropic support and partnerships are crucial as AHC Resident Services expands to meet the critical need for housing stability, social services, and education programs.

Partner with us! AHC is committed to providing our corporate partners with meaningful and mutually beneficial partnership opportunities. Each relationship is tailored to meet the company's marketing objectives and business goals while spotlighting AHC's mission and impact in the community.
