

ASP Volunteer Activities - Fall 2020

When your student doesn't have homework, you'll have time to:

- Practice math & spelling skills while playing games
- Play other games; building a good relationship with your student is key to a successful partnership and it's fun.

Math Games

Odd or Even

Quiz kids on their knowledge of odd/ even numbers. You can make it more competitive by playing the timed version

<https://www.sporcle.com/games/manonthemoon/1-100oddevenchallenge?grade=1>

Rock, Paper, Scissors Math

•Objective: Students will practice quick math by adding or multiplying using their fingers.

•Lesson steps:

Students and volunteer will each make a fist like rock-paper-scissor, and on "shoot" each player puts out some fingers.

Student needs to add the number of their fingers plus the number of fingers from the volunteer.

•Adaptations: Older students can multiply fingers. After some practice, students can race the volunteer to see who can get the answer first.

Snake Math Addition

•Objective: Students will practice their addition skills in this fun math game.

•Lesson steps:

1. Each player writes down the numbers 2,3,4,5,6,8,9,10,11,12
2. Player 1 rolls two dice and finds the sum.
3. Player 1 crosses the sum off of their list.
4. Player 2 rolls the dice and does the same thing.
5. The first one to cross off all the numbers wins.

BUT:

If players roll a 7, they must draw a snake on their paper. The first to get three snakes automatically loses the game.

- Materials: Blank Paper, pencil, Google Dice (annotate and scribble out answer)

Math Games

- Lesson steps: Volunteers can choose from a variety of age leveled math games to play with students. These games are easy to navigate and fun for kids.

Five Second Math

Roll the dice then students will have 5 seconds to add, subtract, or multiply the numbers. Check to see if the answer is correct.

- Materials: <https://www.teacherled.com/iresources/tools/dice/>, paper, pencil and timer

- Adaptations: If there are two or more players see who will find the answer in the least amount of time instead of using a timer.

Math Flash Cards

Tutor will share screen to respective flash cards for students and practice math facts

Sound off!

•Lesson steps: “Play a video version of a book you are reading – only turn off the sound while they watch it. Have them narrate or discuss or write about what is happening, what the actors are revealing about the story through their gestures. Then compare what you saw with what you read.”

- Materials: Zoom (screen share & share computer/device sound), <https://www.storylineonline.net/>

Rhyming Scavenger Hunt

- Objective: Students will practice their spelling and grammar by finding words that rhyme with the words provided.
- Lesson steps: Sharescreen Rhyming Scavenger Worksheet. Have students copy each word onto a different line of binder paper. Next to each word students need to write down a rhyming word.
- Materials: Binder Paper, Pencil, Rhyme Word List
- Adaptations: You can tell older students they need to find 3 rhymes per word.
