gone to college

### Student diversity

**48% Hispanic**  
**39% Black**  
**10% Asian**  
**3% White**  
(including  
North African)

Since its start in a vacant apartment in 1993, AHC's Resident Services program has evolved into a multi-faceted program that nurtures children from elementary through high school, and provides a variety of educational opportunities for parents and senior citizens. The program works so well because we provide services where people live and build long-term and trusting relationships with the families we serve.

## Resident Services by the years

### 1993-1997

- Established partnerships with local community organizations.
- Initiated back-to-school drive.

### 1998-2007

- Initiated Summer Camp to provide year-round youth programming.
- Created literacy focus for After-School Program.
- Expanded Teen Tutoring Program to help youth apply to college.
- Opened first on-site preschool.
- Launched separate Resident Services program in Baltimore that focuses on family stabilization and financial capability.

### 2008-Present

- Started College and Career Readiness Program with additional services and mentors.
- Expanded programs to help senior citizens age in place.
- Added social services component in Virginia, including programs to help families avoid eviction.
- Created more health and wellness programming.
- Expanded to seven on-site preschool partnerships.
